LANZINI
ILLUMINAZIONE

1960 – 1987 – 1994 – 1999 – 2010 – 2016 – 2017

- Lanzini begins its activity as a lampholder producer that will last until the end of the 80's.

- Considering the market evolution, Lanzini decides to invest in halogen floodlights, hence **Zenith** is born and it will be the milestone for Lanzini future production.

- Debut of the first professional discharge floodlights from 250W to 400W.

- Lanzini launches the "Projects" line thanks to the acquisition of "Fenice", a company specialized in **urban lighting**.

- Lanzini starts to sell the first **LED** products.

- January 2016, **EP s.p.a.**, owner of O.erre brand, acquires Lanzini.

- After one year of strong research and development activity, a new LED products generation comes alive.

Lanzini was established in 1960 and It was specialized in the production of industrial lampholder. In the 80's, new targets push the company to organize itself for the development and production of lighting fittings, enlarging both in national and international commercial network. In 2016 Lanzini has been acquired by EP group, in which, in addition to the best resources, also the know-how and the 50 years experience in the lighting business have been transferred. Today Lanzini aims to present itself again, in both indoor and outdoor lighting business, in a new dress, confident of the products developed by EP group.

EP Group.

Was born from the idea to develop innovative products, with high technology content and a unique and recognisable design. This target is reached through a constant job of reasearch and development, aimed at the creation of products that can improve our quality life.

Design & Engineering

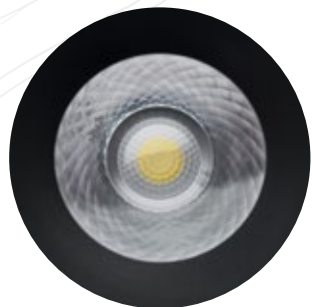

Thanks to the skills acquired during the decades and to the structure of EP Group, that can count on an internal division dedicated to development of new design, Lanzini is able to offer technical and aesthetical solutions in line with the latest trend of the market. Thanks to this peculiarity, all our appliances can be integrated inside various architectures, enhancing shapes and functions.

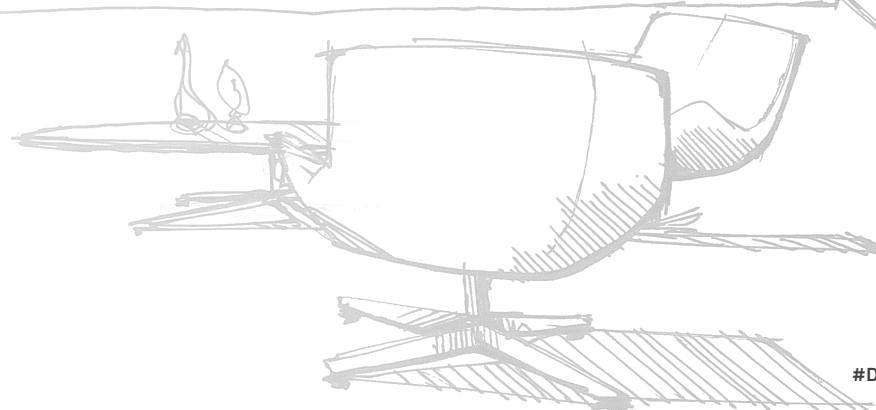

Draw the **light**.

Lanzini operates as on a theatre scene: On the stage every scene, every character, every moment, are located under the correct light. In the same way, the company works to valorize the things, the locations, the spaces, for settlement or job, modelling shapes, choosing materials, projecting lights and shadows, combining colors, in a perpetual creative flow.
